

May the Turtle be With You

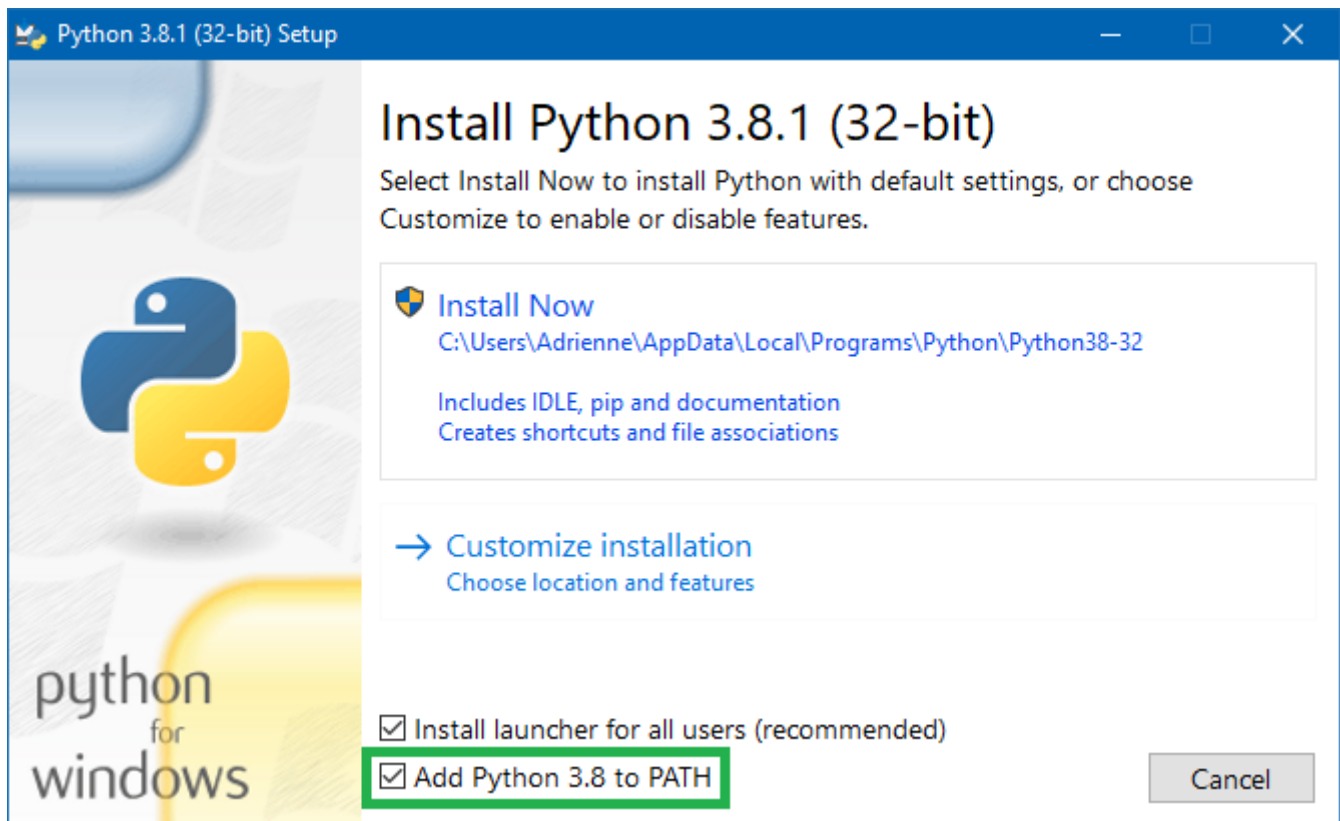

Requirements

In order to follow along in this KidzMash session, make sure you Python 3.8 installed on your computer! Keep in mind that you will need admin permissions to be able to do the installation. Be sure to ask someone for help if you do not have admin permissions on your account. 😊

Installation Instructions

1. Go to <https://www.python.org/downloads/>
2. Find the download that's right for your computer
3. Follow the steps in the installation wizard.

🗨 Windows Users: Be sure to check the Add Python 3.8 to PATH checkbox!

That's it! Once you have finished installing Python, open the IDLE program and you'll be ready to follow along!
